

## **Verdasys Announces Strategic Distribution Agreement with NETMARKS**

### *Leading Network Integrator to Resell Verdasys' Digital Guardian Solutions in Japan*

**Waltham, MA – February 8, 2007** – Verdasys, Inc., the leader in integrated solutions for data loss prevention, corporate compliance and data security announced the signing of a distribution agreement with NETMARKS, INC., the leading network integrator based in Tokyo, Japan. NETMARKS will distribute Verdasys' Digital Guardian solutions as part of its overall integrated network solutions offerings throughout Japan and the Asian Pacific marketplace. The Agreement covers Digital Guardian licenses, maintenance, in-depth training and extensive pre and post direct sales support.

“NETMARKS mission is to provide solutions incorporating state-of-the-art technology for information, and network security industries by supplying solutions that meet the needs of our customers,” said Hiroshi Satoh, General Manager, NETMARKS. “Now that we can offer Digital Guardian to our customers, we believe we can achieve this goal more rapidly because Verdasys Digital Guardian solutions offer capabilities that every business needs, as well as being cost-efficient and extraordinarily easy to use,” he added.

With NETMARKS' deep expertise in networking, security and storage, this partnership will significantly expand the availability of Verdasys' Digital Guardian solutions. Through the Digital Guardian platform, Verdasys provides unparalleled visibility and control of information throughout an organization, as well as its extended global supply chain. Digital Guardian establishes a secure virtual perimeter around business processes providing enterprise data containment, information policy management, regulatory and privacy assurance and secure outsourcing across the global enterprise.

"NETMARKS provides Verdasys with an even stronger presence in the rapidly growing Asia-Pacific market, and will be a valuable partner as our business continues to grow," said Seth Birnbaum, CEO, Verdasys. “They have already closed their first enterprise order in Japan. Our growth in this region is a testimonial of the strong demand for our award winning Digital Guardian solutions, and our partnership with NETMARKS will enable us to extensively advance our presence and foothold in this market as we continue to broaden our worldwide reach,” he stated.

#### **About NETMARKS, INC.**

NETMARKS was established in 1997, as an integrator of network systems in multi-vendor environments, amidst growing demand for the implementation of networks tailored to the needs of the age that were not restricted to a single equipment manufacturer. NETMARKS' business centers on four solutions - the implementation of network systems assuring a flexible response to the latest technology, which are the basis for all other systems, the integration of security systems that assure the protection of critical information, the integration of storage network systems that ensure safe storage and help to make the most effective use of data, and outsourcing services that manage and monitor systems after implementation. NETMARKS combines these solutions to provide total customer support, from design and implementation to operation & monitoring and maintenance. #### **About Verdasys, Inc.**

Verdasys solutions protect proprietary and sensitive data and the integrity of the business processes essential to successfully conducting business on a global basis. Verdasys customers use Digital Guardian for comprehensive data loss prevention and corporate compliance. The Digital Guardian platform creates a secure virtual perimeter that assures that data is controlled by policy and monitored for accountability,

establishing a community of trust between the data user, data owner and data provider. Digital Guardian integrates content, context and location awareness along with encryption and data level controls to reduce the risk of information loss or misuse. Verdasys solutions are in use by government agencies, and by leaders in financial, pharmaceutical, insurance, healthcare, manufacturing, entertainment, and other industries around the world. Verdasys is headquartered in Waltham, MA. For more information, please visit <http://www.verdasys.com>.
