

## **Verdasys to Highlight Broad Coverage for Data Loss Prevention and Data Security at RSA 2008**

**Waltham, MA – April 3, 2008** - Verdasys Inc., the first company to provide enterprise-wide data security solutions for the Global 2000, and with more than 1 million agents deployed, the leader in host based data security invites all attendees of the upcoming RSA Show to visit Verdasys at Booth 2317 in which we will:

- Showcase Digital Guardian, the award-winning and market leading data loss prevention (DLP) software platform.
- Offer a special preview of a new mission critical identity theft and fraud prevention solution for qualified participants.
- Hold multiple book signings by Dan Geer and offer a limited number of free copies of his new book, “Economics and Strategies of Data Security.”

Verdasys Digital Guardian is a fifth generation integrated software platform enabling companies to understand and manage the risks to their sensitive data through fully integrated data discovery, classification, monitoring, control and encryption. Digital Guardian’s unique platform approach makes possible the automated real time enforcement of corporate information security policies across the extended enterprise promoting an internal culture of data security accountability and securing sensitive data with such confidence that it can be "unlocked" and shared across collaborative environments.

Verdasys will also offer a special preview of a groundbreaking approach to internet security and fraud prevention. This new technology delivers the first end to end solution that addresses a wide spectrum of fraud related attacks, and protects online transactions even when computers are compromised. Any company that carries significant risk due to online business should take note of this new technology.

At the Verdasys booth you can meet and receive a free autographed copy of the new book “Economics and Strategies of Data Security,” by Dr. Dan Geer, Jr., Sc.D, Verdasys Vice President and Chief Scientist. The book will be available for sale at the RSA book store and free copies will be supplied during book signings. Book signings will occur at the Verdasys booth on Tuesday 5 – 6pm, Wednesday 10 - 11am, and Thursday Noon – 1pm. Book signings will also be held at the RSA Bookstore Tuesday 4 – 4:45pm and Wednesday 10 – 10:45am.

“Verdasys was early to recognize the unmitigated risk to sensitive data from misuse, loss, theft and fraud and to help companies minimize and eliminate this risk Verdasys continues its aggressive program to deliver unique solutions that include best of breed technology, thought leading educational materials, best in class consulting services and new strategic partnerships,” said Seth Birnbaum, CEO and Co-Founder of Verdasys. “Our innovative Digital Guardian software platform, the only fully integrated data security solution available, offers real solutions to the broadest set of data security requirements global organizations face today and into the future. Our revolutionary new fraud prevention technology will change the way online businesses is protected, and our strategic partnerships with IBM and others have expanded our global delivery channel. With these expanding capabilities, Verdasys now offers turnkey data security solutions to our customers,” he added.

**About Verdasys, Inc.**

Verdasys solutions protect proprietary and sensitive data and the integrity of business processes essential for global 2000 companies to successfully compete in today's highly collaborative and mobile environments. Digital Guardian is a centrally managed, host-based data security platform that discovers, classifies, monitors, controls and encrypts sensitive information at rest, in use and in motion across desktops, laptops, mobile devices, email, Web transactions, terminal servers and enterprise applications. Digital Guardian assures that data is controlled by security policy and monitored for accountability, establishing a community of trust between the data user, owner and provider. Verdasys solutions are used by global leaders in financial services, insurance, technology, manufacturing, and healthcare industries around the world. Verdasys is headquartered in Waltham, MA.
