

Rikei and Verdasys Ink Strategic Distribution Agreement Significantly Expanding the Availability of Verdasys' Digital Guardian Solutions in Japan

Waltham, MA – February 21, 2007 - Verdasys, Inc., the leader in business process integrity solutions for data loss prevention, corporate compliance and data security announced today that Rikei Corporation has signed a long-term agreement significantly expanding their representation of Verdasys in Japan. The commitment covers Digital Guardian licenses, maintenance, certified training and direct professional services provided by Verdasys greatly increasing Rikei's capabilities for providing information risk management solutions in Japan.

"We have been highly successful in selling Digital Guardian to our Japanese customers," said Katsuei Aoyagi, President and CEO, Rikei Corporation. "Digital Guardian is appropriate for Japanese companies because the solution is accurate, globalized and has incredibly strong data protection, data auditing and data leakage prevention capabilities. We see a strong demand for Digital Guardian in Japan and this relationship is an important part of our strategy to expand our business in the Japanese information risk management market," he added.

"We are pleased to have been working with Rikei for the past three years to bring the most comprehensive data security solutions in the world to the Japanese market," said Seth Birnbaum, CEO, Verdasys. "In addition to our award winning Digital Guardian solutions, Verdasys helps to deliver the professional services and support necessary to ensure Rikei's customers succeed in their use of Digital Guardian. We pride ourselves on the high level of commitment to superior service that we demonstrate to our customers. We welcome Rikei's deep knowledge and wide customer reach as we continue to provide production tested, scalable, data protection and business process integrity management capabilities worldwide," he stated.
